

Fruits & Veggies Lotto Game

Directions:

Game Assembly

Print the boards and picture tiles on cardstock. If desired, laminate for durability. Cut out each game board as ONE PIECE. Cut apart each picture tile. You should have four game boards and 24 picture tiles when you finish.

How to Play the Game

This game can be played with 2-4 players. Each player should choose a board and find the tiles that match his or her board. Turn those tiles over and mix them up.

The first player should draw a picture tile from the pile. If the picture matches the player's board, the player keeps the tile and puts it on his board. If it does not match, the player puts it back into the pile. The next player gets a turn.

The game is continued in this way until one player has found all six of his or her tiles and wins the game.
